SUMMARY

Aspiring Data Analyst with strong skills in Python, Pandas, NumPy, and Excel. Proficient in data visualization, statistical analysis, and automation techniques, with hands-on experience in Power BI for creating interactive dashboards. Quick learner with a logical and detail-oriented mindset, passionate about turning raw data into meaningful insights to support business decisions.

EDUCATION

B.tech in ai	vivekananda global university	2022-2026
Class 12th	BSEB	2022
Class 10th	BSEB	2020

SKILLS

- Programming Languages: Python, C, HTML
- Data Tools: MS Excel, Power BI, GitHub, NumPy, Pandas
- Office Suite: MS Word, PowerPoint
- Soft Skills: Logical thinking, fast learning, detail orientation

PROJECTS

JARVIS - VOICE-ACTIVATED VIRTUAL ASSISTANT

- Developed Python-based voice assistant (JARVIS) using Speech Recognition, pyttsx3, and webbrowser.
- Implemented wake-word detection for hands-free activation.
- Designed voice command processing to execute tasks via speech input.
- Automated web browsing tasks (search, open sites, etc.)

STUDENT MANAGEMENT SYSTEM

- Developed a Python-based system to manage student records including name, student ID, attendance, and fee details.
- Implemented modules for adding, updating, and retrieving student data with accurate attendance tracking and fee status monitoring.
- Designed user-friendly input functionality enabling the system to generate organized reports for attendance, fee dues, and overall student performance.
